

All About Smiles, PC
Dr. Dave Motz, DDS

June 20, 2018

Dear Friends,

The past 12 years in my dental practice have been professionally and personally rewarding. It has been an honor and privilege for me to have been entrusted with your dental health needs. I have enjoyed being a part of my patient's lives and watching my patient's families grow and change over the years. I believe every person deserves a healthy smile. Therefore, after much consideration, I have decided to return to practicing public health dentistry in a community setting. After a great deal of effort and search for a proper successor, I am very pleased to announce that Dr. Rajendar Matta, DMD, will be joining my practice.

Dr. Rajendar Matta will join the practice on June 25, 2018 and will assume full-time ownership responsibilities. Des Moines is a terrific place to live and raise a family and thanks to all of you, a terrific place to practice dentistry. I regret leaving you so soon but do look forward to the challenges and rewards of public health dentistry and providing services to those who would otherwise go underserved.

Dr. Matta is a 2009 graduate of Boston University School of Dental Medicine. He had three more years of training in Advanced Prosthodontics. Dr. Matta also serves in Reserve Army Dental Corps. since 2014 and he is very proud to serve our country. He is experienced in all phases of general dentistry. His passion to provide best patient care in a very comprehensive manner makes him best fit for our practice.

It is with confidence and pleasure that I recommend Dr. Matta. He brings to the practice the energy and training which you, as my patients, deserve and expect. I am confident you will enjoy working with him and encourage you to meet him at your mutual convenience.

Sincerely,

Dr. Dave Motz, DDS

Dr. Rajendar Matta, DMD
